

## Mengping Jiang, Ph.D.

Postdoctoral Scholar at Department of Biological Chemistry, David Geffen School of Medicine

University of California, Los Angeles (UCLA)

Mentored by Dr. Weizhe Hong

Email: janine0207@ucla.edu

Phone: 1(682)-358-7856

### Education, Research Experience and Publications

| INSTITUTION AND LOCATION | DEGREE  | Date       | FIELD OF STUDY |
|--------------------------|---------|------------|----------------|
| UCLA, CA, US             | Postdoc | 2022 - now | Neuroscience   |

1. **Jiang M\***, Gu L\*, Ma M, Li Qin Li, Kao JC, Hong W. (2025) Neural basis of cooperative behavior in biological and artificial intelligence systems. **Science**. (\*co-first authors)
2. **Jiang M**, Chang S, Hong W. (2026) Cooperation: behavioral manifestations and neural mechanisms. **Curr. Opin. Neurobiol.**
3. Wang M, Shi Q, Shao Y, **Jiang M**, Fu A, Huang Y, Wang Q, Wei L, Zhang Z, Xu J, Yang T, Li Y, Wang Z. (2025) Oxytocin-mediated empathy internally facilitates cooperative behaviors in rats. **Science Bulletin**.
4. Zhang M, Wu Y, **Jiang M**, Hong W. (2023) Cortical regulation of helping behaviour towards others in pain. **Nature**.

|                                                                                     |                                 |             |              |
|-------------------------------------------------------------------------------------|---------------------------------|-------------|--------------|
| Institute of Neuroscience (ION), Chinese Academy of Sciences (CAS), Shanghai, China | Ph.D.<br>(Advisor: Zuoren Wang) | 2014 - 2021 | Neuroscience |
|-------------------------------------------------------------------------------------|---------------------------------|-------------|--------------|

5. **Jiang M\***, Wang M\*, Shi Q\*, Wei L, Lin Y, Wu D, Liu B, Nie X, Qiao H, Xu L, Yang T, Wang Z. (2021) Evolution and neural representation of mammalian cooperative behavior. **Cell Rep**. (\*co-first authors)

|                                    |      |             |               |
|------------------------------------|------|-------------|---------------|
| Sichuan University, Chengdu, China | B.S. | 2010 - 2014 | Biotechnology |
|------------------------------------|------|-------------|---------------|

6. Li W, Mo J, **Jiang M**, Hu Y, Yu Y, Deng W, Liu Q, Sun Q. (2013) Optimization of enrichment medium for improved recovery of sub-lethally injured *Salmonella* Enteritidis in egg. **Food Science**, CN: 11-2206/T, ISSN: 1002-6630
7. Li W, Yu Y, Mo J, **Jiang M**, Hu Y, Deng W, Sun Q, (2012) Skimmed milk as effective supplementation for detection of low numbers of sub-lethally injured *Salmonella* Enteritidis in egg white. **Food and Fermentation Sciences & Technology**, CN: 51-1713/TS, ISSN: 1674-506x

### Honors and Awards

|      |                                                             |
|------|-------------------------------------------------------------|
| 2025 | Marion Bowen Neurobiology Postdoctoral Scholar Grant        |
| 2020 | "Author of the year" Prize, Shanghai Natural History Museum |

## Curriculum Vitae, Mengping Jiang

---

|            |                                                                        |
|------------|------------------------------------------------------------------------|
| 2020       | Outstanding Student, Institute of Neuroscience, CAS                    |
| 2019       | Second Prize, Rui Wo De Ming de Scholarship for Basic Medical Sciences |
| 2018       | Outstanding Student, Institute of Neuroscience, CAS                    |
| 2015       | Excellent Student Cadre, Institute of Neuroscience, CAS                |
| 2014       | Outstanding Student, University of Chinese Academy of Sciences, CAS    |
| 2013, 2011 | National Scholarship for Undergraduate Student, China                  |

### Talks and Meeting Abstracts

|      |                                                                                                                                                                                   |
|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2026 | University of Tennessee, Evolutionary and Neural Mechanisms of Cooperative Behavior                                                                                               |
| 2025 | Society for Neuroscience (SfN), Neural basis of cooperative behavior in biological and artificial intelligence systems, San Diego (Poster)                                        |
| 2025 | Brainnews, Evolution and neural representation of cooperative behavior in biological and artificial intelligence systems (Online talk)                                            |
| 2025 | iBrain, Neural basis of cooperative behavior in biological and artificial intelligence systems (Online talk)                                                                      |
| 2021 | iBrain, Evolution and neural representation of mammalian cooperative behavior (Online talk)                                                                                       |
| 2020 | Federation of European Neuroscience Societies (FENS), Neural representations of cooperative behavior in lateral orbitofrontal cortex, Virtual Forum (Poster)                      |
| 2019 | The First Chinese Conference on Computational and Cognitive Neuroscience (CCCN), Neural representations of cooperative behavior in lateral orbitofrontal cortex, Chengdu (Poster) |
| 2018 | Society for Neuroscience (SfN), Neuronal mechanism underlying rat cooperation in a temporal coordination task, San Diego (Poster)                                                 |

### Teaching, Mentoring and Outreach Activities

|            |                                                                              |
|------------|------------------------------------------------------------------------------|
| 2025       | Advanced Neuropixels and OpenScope Workshop                                  |
| 2023-2025  | Committee of NeuroReport (a non-profit brain science outreach team)          |
| 2020       | Volunteer for Community Science Fair: Exploring the brain                    |
| 2019       | Guest for Shanghai's 4th Meet-the-Scientists Event                           |
| 2018-2019  | Volunteer for Public Science Day at the Institute of Neuroscience            |
| 2018       | Teaching Assistant, Bio2000 Course, CAS & Shanghai Tech University           |
| 2015, 2018 | Volunteer and organizer of Neuroscience Summer Camp for high school students |
